THIS HAIR WASH has been prepared is steadily increasing in India, the Straits and Japan. It possesses all the qualities of a Hair Oil or Pomad: without their stickiness. It induces a healthy action of the scalp and nourishes the Hair. Dandruff never appears whilst it is in use. It contains none but the best ingredients, and the greatest care is taken in the compounding. When the Hair falls off after fover or any other sickness, this Wash will surely prove of the greatest value.

# HAIR WASH.

An unique and elegau appendage to the Toilet. combining in itself the properties of a Hair Grease, Wash, and Restorer.

PREPARED ONLY BY LLEWELLYN & CO., Chemists, &c. SHANGHAI.

DIRECTIONS. portion to be poured upon the Head o be rubbed into the roots of the Hair. No Pomade required.

From its great nourishing power on the follicles it may in time cause Hair to return to its natural color; it, however, does not contain a particle of any dyeing ingredient. Using it constantly will most certainly prevent the Hair falling. It is cleanly in use, the smallest quantity sufficing. It has no sediment, and therefore requires no shaking, J. LLEWELLYN & Co.,

HONGKONG, SATURDAY, DEC. 18, 1880. HONGKONG PUBLIC SCHOOL. PRESENTATION OF PRIZES.

The first distribution of prizes at the Hongkong Public School took place today, when the Governor, Sir John Pope Hennessy, presided, and there were present the Chief Justice, Sir John Smale, the Puisne Judge, F. The boys of the present day were the future fords of creation, as he had no doubt they, (the gentlemen present,) might con-sider themselves for the time being; but they were surely not all creation. The girls ought not to be neglected. He had mentioned the facts which he had just stated to show that it was not intended that the small attendance of to-

day should continue. The Governor then distributed the prizes, and both his Excellency and his Lordship had a kind and happy word to say to each of the recipients. The Governor told several of the principal prize-takers that he would supplement the prizes they had gained by a small

present of a book from himself. When the distribution of the prizes for arithmetic and spelling came round, the Bishop took occasion to remark that Dr Eitel had, after examining the school, said that the spelling and arithmetic were here better than in any other

He helieved a very good work had been done by the Bishop in establishing this school His Lordship was about to take his leave of absence shortly, say in three months more. His Lordship had been in China now for many years and had done an immensity of good work in China and he (the Governor) could speak from his own personal knowledge and from the official returns which he had seen, as to the good work His Lordship had effected in Hongkong, He trusted that when the Bishop of Victoria and Mrs Burdon visited their friends in England, they would find many of them interested in the good work they had been carrying on, and willing to assist them to carry out further the work they had been engaged in. To conclude, he must congratulate these young gentlemen whom the Bishop had called the future lords of creation. They might aspire to become leading merchants here, or Government officials, and he hoped with friends here and elsewhere enjoyed There might be something prosaic in alluding ugain to the report of the Government Inspector as to dictation. and arithmetic. But he saw before him, at the present moment, managers of Banks and Directors of Banks and some of the leading members of our mercantile community, and he asked them whether a creditable excellence in arithmeti and in writing from dictation were no qualities which more than any other they would desire in those they would select to assist them in their business.

express his gratitude to the Governor, halding the convictions which he did for presiding here to-day—his gratitude and that he had no doubt of others for the kindliness with which His Excellency had treated the offorts of others who carried out their object, the ad vancement of education, according to their own method and for their own purposes He could never enter a school but he was impressed with the idea that the boys of to-day are the men of to-morrow. Every boy ought to know that everything he imbibed and made a part of himself at school was either so much good to bless the world and be a credit in after life to himself and those connected with him, or so much evil to curse his future. He had always been impressed so strongly with that idea that he never entered a schoolroom without feeling that he was going into a sacred place. He congratulated the boys who had won prizes, and said that they would always have an additional value to them considering that His Excellency had presented them. They must also remember that when the letters went home, carrying the news of their achievements in the various departments of the school, to their friends and relatives at home how much joy that would mean to those to whom they were dear although they were far away. He spoke feelingly on this subject because his own grandchildren had carried away, as some of these boys had done to-day, more prizes than they were able to carry home. In this school a great deal was due to the gentleman who had come out from England to carry on the school, and who had brought about such a result in such a short time. It was very seldom that the right man was found in the right place, but so far as this school was concerned, he believed the right man was ing his merits. Mr Sutton was in the Haven, discussed the methods of transliteraright place, was a question to be looked at from another point of view. They must take the selfish view of the matter and say that they were glad he was the master of this school. He had the liveliest satisfaction in finding His Excellency as Governor of this Colony giving countenance to those who were carrying out the educational purpose put in shape, and so succossfully carried out during the last Chinese, besides an auxiliary corpa twelve months by his Lordship the Bishop; it was highly satisfactory to himself and to that section of the community to which he belonged to find the Governor giving his countenance to the efforts of the minority in this Colony, who, although they were the minority, were carrying out honestly and earnestly their purpose; his Excellency was doing what all should do .- countenancing and encouraging those who, however widely doubtedly good and productive work in the cause of education. THE recent meeting of the American Orienta Society in New York (Oct. 28) was made ! especially interesting by the presence of Dr. Martin, president of the college for instruction of Chinese young men in European languages and knowledge at Peking. Dr. Martin made two communications: one on the Chinese worship of ancestors, of which he took a much more favorable view than hat of most missionaries, asserting that it had done much to save China from idolatry and hierarchical despotism, and that any objectionable element in it might be left to melt out under the influence of an accepted Christianity instead of being by positive attack the strongest obstacle in the way of Christianity; another on new forms Buddhism in Japan and China, in which, Prof. S. Wells Williams, of Yale College, read an article on Fu-sung, held by many to be a western America known to the Chinese; he showed by the direumstances of the origin of its description, and by the surroundings of the latter, that the notion was destitute of any shade of plausibility, The veteran Egyptologist, Professor Sevffarth, discussed the origin and date of belisk now in process of erection on Central Park. He pointed out that its current connection with Cleopatra is purely fanciful, and regarded it as first set up by Thothmes III., nearly 1,900 years before Christ, and further inscribed by Rameses II., 200 years later. SECOND DAY.

Saturday, 18th December, 1880. The weather to-day was rather more favourable for the full enjoyment of the Regatta, as, although there was not much sonshine, there was at least no rain, and the air was much less bloak than yesterday. This change for the better evidently had tors both ashore and shoat, and a greater interest in the various events appeared to be prevalent among the computitors themsolves. The International "Challenge Cup," which was one of the principal events of the day, was won by the Irish crew in the Thistle, thus taking their turn at scorpulled off this event last year. The Ladies' Purse, the blue ribbon of sculling races, was won; somewhat to the surprise of the experienced ones, by Mr W. Dunman, and immediately after the conclusion of the race, the winner received the prize from mony of the presentation taking place on board the Sauda. In thanking the fair presenter the winning oars man expressed This thanks in the usual gracewas an honour hard to win, as all honours should be to be worth the winning.

One of the most interesting and amusing events of the day was the Man-of-War boats' race, for which no less than ton came to the start, owing no doubt to the number of Men-of-War vessels, both Eng lish and of other nationalities, at present

Only two boats started for this race, the Avorand the Zulu, the latter being asix oared gig. The Gunner which was entered was dis qualified by being a winner yesterday, and the Glasgow did not turn up. The two boats got away well together, and a very good race ensued, but at about half the distance the stroke of the Avon appeared to be pumped and the Zulu got a decided lead, which was increased gradually till at the finish she came in about seve lengths shead of her opponent, A good tide favoured the pace, which was re markably good, the mile being done in 8

This was one of the chief events of the day, and a great deal of diversity of opinion was expressed as to the probable winners before the race name off. After a good start the Cambridge colours came to the front, and held their position for about half the distance, when the Sylph (black and white) crept up and passed them. The Victoria put on a spurt, but could not get up to the quarter of their antagonist, whose crew were rowing in good form and with a steady swing. The Thistie was by this time five or six lengths astern, and had no chance of winning, their rowing being very indifferent. A grand struggle was made towards the finish by the light blue, but in vain, as the Sylph kept her distance and won by half a length. Time, 9 m. 6 sec. The coxswain in the Victoria had been

All got away fairly together, but before they had got far, the superior numbers (14) in the Iron Duke's outter began to tell, and she worked into the leading position; the Alert's Mohawk being her most dangerous antagonist. The German Cyclop's cutter put on a spurt at about half the distance, and eventually ran the Mohawk hard for second place. Some very hard pulling was exhibited by several of the other crews, but none were able to come up with the Iron Duke's outtor, which came in a length attend of the Mohawk, the Cyclop's boat being about four lengths behind the latter. The yacht race to-day was a handicap, and arranged it a rather peculiar manner, the time allowance being given at the start instead of at the finish, as usual. Unfor tunately, owing to the want of wind at the time fixed for the start, the time allowance did not amount to much. The smaller and slower boats, even with the long time allowance, got a very little distance before the scratch boat, so that practically the starte were nothing to what they would have been in a decent sailing breeze. Advices from Kuei chow are anything but reassuring-serious troubles are apprehended at Tung-tzu Hsien, and other places where the Koh lao, Secret Society, has been at work lately; the officials it appears have been stirring up a hornet's nest, which may cause them some pain to pacify. The Tung-tzn Magistrate is reported to be a lucrelover, and passionate Honour andglory-hunter, who will do anything to obtain his coveted prize. He is therefore execrated by the people, who ought to love and obey him, so there is not much of a chance of obtaining peace whilst he rules an justly at Tang tza Hsien. Mr John Wilson, of the Scotch Bible Society, started for Ch'eng-tu Fu, the capital of this Province, this morning, on another tour of bookselling; this makes his third this year, and he has disposed of many loads of Bibles and other religious books. Travelling expenses are however very great, as the books have to be carried overland by coolies who only take about 100 lbs. each as a load for which they have to be paid 320 cash a day, at which price it is rather difficult to obtain them, the coolie Hongs stick out for 360 cash each, for the more they get is for themselves, as the poor coolies who work are so much in the power of the Hongs that they dare not take a job cheaper than what the Hongs take, and then they have to pay the regular Hongkuei, which amounts to a fifth of what they get, and no dependance can be placed on the men thus employed, as they are sure to give a lot of trouble when not engaged by the Hongs.

# DR L'ALOR'S

Trade Mark-PHOSPHODYNE. DISCOVERED AND SO NAMED, A.D. 1862, BY.R. D. LALOR, M. D.

DR. LALOR'S PHOSPHODYNE is a Pure Solution of PHOSPHOROUS in combination with the Vegetable Alkaloids Quinise, Cypripedin, Kanthoxylin, &c., prepared by a Chemical process lows only to DR. LALOR, producing a remarkably Elegant and Pleasant Tested Preparation, equal to the best Wines, Prefectly free from Strychnia and all other Dangerously Active Drugs; superseding the numerous objectionable forms of Phosphorous Pills, Pilules, Oils, and other Nauscons Mixtures with which the Market has been flooded since the Phosphoric Treatment of Disease was first made Public by DR. R. D. LALOR, in 1862.

To Residents in India, China, and the Colonies, it will prove invaluable as a RELIABLE Liver Tonic and a Vitalizing Restorative.

This Phosphatic combination, the Wonder of Modern Chemistry, is pronounced by the mou eminent members of the Medical profession to be unequalled for its power in replenishing and elaborating the Vitality of the Body; by its supplying all the essential constituents of the BLOOD, BRAIN, and NERVE SUBSTANCE; and for developing all the Powers and Functions of the system to the highest degree; by its being agreeable to the palate, and innocent in its action. While retaining its wonderful properties, it acts as a Specific, surpassing all the known THERAPEUTIC AGENTS of the PRESENT AGE, for the SPEEDY and PERMANENT CURE of all derangements of the Nervous and Blood Systems, Nervous Prostration, General Debility, Mental and Physical Depression, Incapacity for Study or Business, Noises in the Head and Ears, Loss of Energy and Appetite, Indigestion and Liver Complaints, Flatulence, Nervous Fancies, Hypochondria, Nervous Debility in all its Stages, Loss of Memory, Softening of the Brain, Paralysis, Affections of the Spinal Column, Lumbago, Sciatica, Affections of the Kidneys, Bladder, Urinary Deposits, &c., Ague, Spasms, Asthma, Consumption, Chronic Bronchitis, Scrofula and Skin Diseases, Rickets (in children), Wasting or Withering of the Muscles, Impaired Nutrition, Impoverished Blood, Premature Decline, and all morbid conditions of the system, dependent upon the deficiency of THE VITAL FORCES, whether arising from Climate, Brain Fag, or whatever

DE, LALOR'S PHOSPHODYNE being natural RESTORATIVE, its Energising Effects are not followed by corresponding re-action; but are PERMANENT; and are frequently shown from the first day of its administration by a remarkable increase of Nervous Power, with a feeling Vigour, Strength, and Comfort, to which the patient has long been unaccustomed. DR. LALOR'S PHOSPHODYNE gives back to the Human structure in a suitable form the Phosphoric or Lively Animating element of life which has been wasted, and exerts an important influence directly on the BRAIN; SPINAL MARROW, AND NERVOUS SYSTEM, of a Nutritive, Tonio, and Invigorating character; thereby checking all Wasting of the Vital Fluid, and the more Exhausting Processes of Life, maintaining that Buoyant Energy of the Brain and Muscalar-System which renders the MIND CHEERFUL, HAPPY, BRILLIANT, and ENEROETIC; entirely overcoming that Dall, Inactive and Sloggish disposition which many persons experience in all their actions. A Marvellous Restorative for Brain Toilers, Clergymen, Bus tess Men, and a" who are engaged in the Competitive Strug-

PHOSPHODYNE, the Autidote for Climatic Disease. The Remedial properties of DR LALOR'S PHOSPHODYNE have spread its fame throughout every Nation and Country the World, the natural outcome of wi ch is, that the sale has now become enormous in India, Chins, Africa, and other Hot Ol match recreased demand is attributable to the fact of its possessing in the most perfectly assimilable form the essential Vitalising properties of PHOSPHORUS, which rean mates the Exhansted functions of Life when 'upaired Heat or other causes, A very large number of Testimor of from all parts of the World freely offered from Dist ignished Families, Private Persons, Military, Naval, Scientific and Professional Men who are well known, speak of its marve ous powers '1 Nervous Debility, WANT OF STAMINA, FEVERS, MALARIOUS DIS-EABES, and as a LIVER TONIC.

PUBLIC NOTICE AND WARNING .- To Medicine Vendors and the Public in Great Brita'n, Ind's, Ch'us, and the Colonies. - DR. LALOR'S PHOSPHODYNE is the only Medic ne beat ig the name PHOSPHODYNE that has the Stuction of the British Government and for which Her Majesty's Registrar of "Trad Marks" has gr. ated Certificates to DR. DR. J. COLLIS BROWNE'S

CHLORODYNE

(Ex Army Med. Staff) IS THE ORIGINAL AND ONLY

CAUTION. - Vice-Chancellor Sir W. P. Wood stated that Dr. Collis Browne was undoubtedly the Inventor of Chlorodyne, that the story of the Defendant, Freeman, being the Inventor was desiberately untrue; which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's, -See Times, July 12, 1864. The public, therefore, are cautioned aga nat using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE. REMEDIAL USES AND ACTION. This invaluable remedy produces quiet, refreshing sleep, relieves pain, calma the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may-take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most exten-

CHLORODYNE is admitted by the profesaion to be the most wonderful and valuable remedy ever discovered.

CHLORODENE is the best remedy known for coughs, consumption, bronchitis, asthma. Untoropyke effectually checks and arrests those too often fatal diseasesdiphtheria, fever, croup, ague.

CHLORODYNE sots like a charm in diarrhose, and is the only specific in cholera and dysentery. CHLORODYNE effectually cuts short all

attacks of epilepsy, hysteria, palpitations CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothsche, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS. The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in Cholera was Uhlorodyne.-See Lanort, Dec. 31, 1864.

From A. Montgomery, Esq., Into Inspector of Hospitals, Bombay :- "Chlorodyne is a most valuable remedy in Neuralgia. Asthma, and Dysentery. To it I fairl we my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholers in which Dr. J. COLLIS BROWNE'S CHLORODYNE was administered, the patient recovered.

Extract from the General Board Health, London, as to its efficacy in Cholera. - So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, Pharmaceutical Jour nal, August I, 1869, which states that Dr J. Collis Browne was the inventor of Chlore dyne; that it is always right to use his preparation when Chlorodyne is ordered. CAUTION.-None genuine without th words "Dr. J. Collis Browns" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Höngkong half-yearly in advance. The publication includes, papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manuers and Cus-toms, Natural History, Roligion, &c., &c.,

of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, Gorman, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a resume in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review

Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

department.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learn; ed societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scholars are ascertaining about China. The lecture on Chinese Footry in this volume is alone worth the price of the Review. Address China Review, Hongkong. - Northern

Christian Advocate (U.S.) Trubner's Oriental Record contains the following notice of the China Review :- " This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on Uhina and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China: Thepresent publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of inform ation, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the member of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated and who are severally represented in the first number of the Review by papers highly creditable to their respective authors. In a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place o honour is deservedly given, an excellen summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-plo, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar 741 degree of literary zeal to that which was Co displayed during the lifetime of its predecessor in the field, and that the China Review Co may receive the support necessary to insure Fig.
